Subject Index for Volume 39, *Materials Evaluation*

Acoustic Emission, Adaptive Spot-Weld Feedback Control Loop Via, S. J. Vahaviolos, M. F. Carlos, S. J. Slykhous, and S. J. Ternowchek, No. 11, p. 1057

Acoustic Emission: An Emerging Technology for Assessing Fatigue Damage in Aircraft Structure, C. D. Bailey and W. M. Pless, No. 10, p. 1045

Acoustic Emission, General Principles of, Jean-Claude Lenain, No. 11, p. 1000

Acoustic Emission: A Hearing Aid for Hydril, No. 11, p. 1008

Acoustic Emission Inspection (Back to Basics), D. L. Parry, No. 11, p. 1004

Acoustic Emission, New Horizons for, R. W. Sheriff, No. 11, p. 1018

Acoustic Emission from Nodular Cast Iron, Frequency Spectra of, D. M. Egle, C. A. Tatro, and A. E. Brown, No. 11, p. 1037

Acoustic Emission Sensors, Characterization and Calibration of, N. N. Hsu and F. R. Breckenridge, No. 1, p. 60

Acoustic Emission Signal Analysis, Application of Deconvolution to, J. E. Michaels, T. E. Michaels, and W. Sachse, No. 11, p. 1032

Acoustic Emission Signatures by Indentation in Steels, Reproducible, R. B. Clough and J. A. Simmons, No. 11, p. 1026

Acoustic Emission Signatures of Various Rock Types in Tension, G. M. Boyce, R. M. Koerner, W. M. McCabe, and A. E. Lord, Jr., No. 11, p. 1051

Acoustic Emission Source, A Laser-Generated Standard, C. B. Scruby, H. N. G. Wadley, R. J. Dewhurst, D. A. Hutchins, and S. B. Palmer, No. 13, p. 1250

Acoustic Ranger—A Sound Method for Tube Inspection, Experience with the, E. S. Morgan, No. 10, p. 926

Adaptive Spot-Weld Feedback Control Loop Via Acoustic Emission, S. J. Vahaviolos, M. F. Carlos, S. J. Slykhous, and S. J. Ternowchek, No. 11, p. 1057

Aircraft Structure, Acoustic Emission: An Emerging Technology for Assessing Fatigue Damage in, C. D. Bailey and W. M. Pless, No. 11, p. 1045

Angle Beam Interrogation Method, An Assessment of the Detecting Ability of the, S. Serabian, No. 13, p. 1243

Anisotropic Weldments, The Propagation of Ultrasound in, M. G. Silk, No. 5, p. 462

Application of Deconvolution to Acoustic Emission Signal Analysis, J. E. Michaels, T. E. Michaels, and W. Sachse, No. 11, p. 1032

Application of Radiation Techniques to Coal Liquefaction, The, D. G. Sample and M. G. Thomas, No. 5, p. 455

Artificial Holes for Arresting Internal Weld Crack, G. Itoh, No. 6, p. 537

ASME Requirements for Level III Certification Using SNT-TC-1A, A History of (Opinion Paper), Michael C. Modes, No. 9, p. 792

ASME Section XI Requirements Using the SUTAR System, Automated Data Processing for, D. R. Hamlin and H. L. Grothues, No. 1, p. 57

ASNT—What It Is—How It Grew—What It Does, Ralph E. Turner, No. 4, p. 374

Assessment of the Detecting Ability of the Angle Beam Interrogation Method, An, S. Serabian, No. 13, p. 1243

Attenuation Transfer Technique Using Ultrasonic Reference Blocks, Interference Effects in the, C. K. Lai and B. G. Frock, No. 2, p. 170

Austenitic Sheet by Ultrasonic Backscattering, Nondestructive Determination of Grain Size in, A. Hecht, R. Thiel, E. Neumann, and E. Mundry, No. 10, p. 934

Automated Data Processing for ASME Section XI Requirements Using the SUTAR System, D. R. Hamlin and H. L. Grothues, No. 1, p. 57

Automated In-Service Eddy Current Inspection of Gas Turbine Rotor Bores, F. V. Ammirato, No. 9, p. 849

Basis for Traceable NDE Measurements, Part 1, A, (Back to Basics), D. G. Eitzen, H. Berger, and G. Birnbaum, No. 9, p. 797

Basis for Traceable NDE Measurements, Part 2, A, (Back to Basics), D. G. Eitzen, H. Berger, and G. Birnbaum, No. 10, p. 886

Bond Quality on Turbine Components, Holographic Inspection for Thin Cover Sheet, N. B. Edenborough and D. J. Monnier, No. 7, p. 643

Boresonic Examination of a Low Pressure Turbine Rotor, Recent Experience with, R. V. Collins, No. 2, p. 161

Boresonic System, An Improved, G. E. Ronca and W. E. Glenn, No. 10, p. 943

Butt Welds Reference Radiographs, Tubing, R. D. Brown, No. 8, p. 739

Calibration of Acoustic Emission Sensors, Characterization and, N. N. Hsu and F. R. Breckenridge, No. 1, p. 60

Cannon Tubes, Ultrasonic Thickness Variation Measurement of Hot Forged, J. G. Rumbold and S. Krupski, No. 10, p. 939

Carbon Steel, Ultrasonic Prediction of Grain Size and Mechanical Properties in Plain, R. Klinman and E. T. Stephenson, No. 12, p. 1116

Cartridge Cases, An Eddy Current System for High-Speed Inspection of M-16, R. A. Dilbeck and T. J. Davis, No. 4, p. 396

Certification—Myth or Meaningful (Alternate Opinion Paper), J. C. Spanner, No. 10, p. 910

Certify Quality Control Inspectors of Reinforced Thermosetting Resin Plastic (RTRP) Products (Back to Basics), E. Jain, No. 4, p. 346

Characterization and Calibration of Acoustic Emission Sensors, N. N. Hsu and F. R. Breckenridge, No. 1, p. 60

Clinch River Breeder Reactor Steam Generator Tubing, Ultrasonic Testing of the, R. A. Day and D. S. Kerr, No. 1, p. 69

Coal Liquefaction, The Application of Radiation Techniques to, D. G. Sample and M. G. Thomas, No. 5, p. 455

Common Misunderstandings of SNT-TC-1A (1975), R. A. Baker, No. 7, p. 647

Composite Laminate Characterization by Means of Ultrasonic Polar-Scan, Nondestructive, W. H. M. van Dreumel and J. L. Speijer, No. 10, p. 922

Composites at Grumman Aerospace, NDT Chronology of Advanced, R. M. Collins, No. 12, p. 1126

Composites by Ultrasonic Mapping, Fatigue Damage Monitoring in, I. M. Daniel, S. W. Schramm, and T. Liber, No. 9, p. 834

Computer-Assisted Spatial Averaging for Ultrasonic Inspection of Stainless Steel Welds, D. S. Kupperman, K. J. Reimann, and A. Winiecki, No. 6, p. 527

Computerized Model for Calculating the Size and Direction of Unknown Reflector Located in a Medium Immersed in Water by Ultrasonic Spectroscopy, A, G. S. Tsiang, No. 9, p. 824

Data Processing for ASME Section XI Requirements Using the SUTAR System, Automated, D. R. Hamlin and H. L. Grothues, No. 1, p. 57

Deconvolution to Acoustic Emission Signal Analysis, Application of, J. E. Michaels, T. E. Michaels, and W. Sachse, No. 11, p. 1032

Demonstration of Filtered Neutron Beam Computed Tomography; Evaluation of a 37 Pin Fuel Assembly Phantom, A, G. A. Schlapper, R. M. Brugger, R. A. Koeppe, G. N. Larsen, and R. J. Jost, No. 12, p. 1121

Developments in Gamma Ray Radiography 1928-41, 1941 Mehl Lecture, Charles W. Briggs, No. 4, p. 356

Dimensioning Flaws in Pipeline Girth Welds by Radiographic Methods, R. C. Placious, D. A. Garrett, M. B. Kasen, and H. Berger, No. 8, p. 755

Dimensions from Radiographs, Extraction of, A. Fishman, S. Wajnberg, A. Notea, and Y. Segal, No. 8, p. 744

Discontinuity (Back to Basics), R. E. O'Conner, No. 6, p. 507

Distance Amplitude Correction and Ultrasonic Inspection, A New Approach to Calibrating for, J. G. Rumbold and J. L. Jackson, No. 5, p. 459

Eddy Current Inspection of Gas Turbine Rotor Bores, Automated In-Service, F. V. Ammirato, No. 9, p. 849

Eddy Current Signals in Steam Generator NDT, Finite Element Simulation of Support Plate and Tube Defect, R. Palanisamy and W. Lord, No. 7, p. 651

Eddy Current System for High-Speed Inspection of M-16 Cartridge Cases, An, R. A. Dilbeck and T. J. Davis, No. 4, p. 396

Evolution of an NDT Engineer—Model 1965, Carl E. Betz, No. 4, p. 371

Experience with the Acoustic Ranger—A Sound Method for Tube Inspection, E. S. Morgan, No. 10, p. 926

Subject Index for Volume 39, *Materials Evaluation*

Acoustic Emission, Adaptive Spot-Weld Feedback Control Loop Via, S. J. Vahaviolos, M. F. Carlos, S. J. Slykhous, and S. J. Ternowchek, No. 11, p. 1057

Acoustic Emission: An Emerging Technology for Assessing Fatigue Damage in Aircraft Structure, C. D. Bailey and W. M. Pless, No. 10, p. 1045

Acoustic Emission, General Principles of, Jean-Claude Lenain, No. 11, p. 1000

Acoustic Emission: A Hearing Aid for Hydril, No. 11, p. 1008

Acoustic Emission Inspection (Back to Basics), D. L. Parry, No. 11, p. 1004

Acoustic Emission, New Horizons for, R. W. Sheriff, No. 11, p. 1018

Acoustic Emission from Nodular Cast Iron, Frequency Spectra of, D. M. Egle, C. A. Tatro, and A. E. Brown, No. 11, p. 1037

Acoustic Emission Sensors, Characterization and Calibration of, N. N. Hsu and F. R. Breckenridge, No. 1, p. 60

Acoustic Emission Signal Analysis, Application of Deconvolution to, J. E. Michaels, T. E. Michaels, and W. Sachse, No. 11, p. 1032

Acoustic Emission Signatures by Indentation in Steels, Reproducible, R. B. Clough and J. A. Simmons, No. 11, p. 1026

Acoustic Emission Signatures of Various Rock Types in Tension, G. M. Boyce, R. M. Koerner, W. M. McCabe, and A. E. Lord, Jr., No. 11, p. 1051

Acoustic Emission Source, A Laser-Generated Standard, C. B. Scruby, H. N. G. Wadley, R. J. Dewhurst, D. A. Hutchins, and S. B. Palmer, No. 13, p. 1250

Acoustic Ranger—A Sound Method for Tube Inspection, Experience with the, E. S. Morgan, No. 10, p. 926

Adaptive Spot-Weld Feedback Control Loop Via Acoustic Emission, S. J. Vahaviolos, M. F. Carlos, S. J. Slykhous, and S. J. Ternowchek, No. 11, p. 1057

Aircraft Structure, Acoustic Emission: An Emerging Technology for Assessing Fatigue Damage in, C. D. Bailey and W. M. Pless, No. 11, p. 1045

Angle Beam Interrogation Method, An Assessment of the Detecting Ability of the, S. Serabian, No. 13, p. 1243

Anisotropic Weldments, The Propagation of Ultrasound in, M. G. Silk, No. 5, p. 462

Application of Deconvolution to Acoustic Emission Signal Analysis, J. E. Michaels, T. E. Michaels, and W. Sachse, No. 11, p. 1032

Application of Radiation Techniques to Coal Liquefaction, The, D. G. Sample and M. G. Thomas, No. 5, p. 455

Artificial Holes for Arresting Internal Weld Crack, G. Itoh, No. 6, p. 537

ASME Requirements for Level III Certification Using SNT-TC-1A, A History of (Opinion Paper), Michael C. Modes, No. 9, p. 792

ASME Section XI Requirements Using the SUTAR System, Automated Data Processing for, D. R. Hamlin and H. L. Grothues, No. 1, p. 57

ASNT—What It Is—How It Grew—What It Does, Ralph E. Turner, No. 4, p. 374

Assessment of the Detecting Ability of the Angle Beam Interrogation Method, An, S. Serabian, No. 13, p. 1243

Attenuation Transfer Technique Using Ultrasonic Reference Blocks, Interference Effects in the, C. K. Lai and B. G. Frock, No. 2, p. 170

Austenitic Sheet by Ultrasonic Backscattering, Nondestructive Determination of Grain Size in, A. Hecht, R. Thiel, E. Neumann, and E. Mundry, No. 10, p. 934

Automated Data Processing for ASME Section XI Requirements Using the SUTAR System, D. R. Hamlin and H. L. Grothues, No. 1, p. 57

Automated In-Service Eddy Current Inspection of Gas Turbine Rotor Bores, F. V. Ammirato, No. 9, p. 849

Basis for Traceable NDE Measurements, Part 1, A, (Back to Basics), D. G. Eitzen, H. Berger, and G. Birnbaum, No. 9, p. 797

Basis for Traceable NDE Measurements, Part 2, A, (Back to Basics), D. G. Eitzen, H. Berger, and G. Birnbaum, No. 10, p. 886

Bond Quality on Turbine Components, Holographic Inspection for Thin Cover Sheet, N. B. Edenborough and D. J. Monnier, No. 7, p. 643

Boresonic Examination of a Low Pressure Turbine Rotor, Recent Experience with, R. V. Collins, No. 2, p. 161

Boresonic System, An Improved, G. E. Ronca and W. E. Glenn, No. 10, p. 943

Butt Welds Reference Radiographs, Tubing, R. D. Brown, No. 8, p. 739

Calibration of Acoustic Emission Sensors, Characterization and, N. N. Hsu and F. R. Breckenridge, No. 1, p. 60

Cannon Tubes, Ultrasonic Thickness Variation Measurement of Hot Forged, J. G. Rumbold and S. Krupski, No. 10, p. 939

Carbon Steel, Ultrasonic Prediction of Grain Size and Mechanical Properties in Plain, R. Klinman and E. T. Stephenson, No. 12, p. 1116

Cartridge Cases, An Eddy Current System for High-Speed Inspection of M-16, R. A. Dilbeck and T. J. Davis, No. 4, p. 396

Certification—Myth or Meaningful (Alternate Opinion Paper), J. C. Spanner, No. 10, p. 910

Certify Quality Control Inspectors of Reinforced Thermosetting Resin Plastic (RTRP) Products (Back to Basics), E. Jain, No. 4, p. 346

Characterization and Calibration of Acoustic Emission Sensors, N. N. Hsu and F. R. Breckenridge, No. 1, p. 60

Clinch River Breeder Reactor Steam Generator Tubing, Ultrasonic Testing of the, R. A. Day and D. S. Kerr, No. 1, p. 69

Coal Liquefaction, The Application of Radiation Techniques to, D. G. Sample and M. G. Thomas, No. 5, p. 455

Common Misunderstandings of SNT-TC-1A (1975), R. A. Baker, No. 7, p. 647

Composite Laminate Characterization by Means of Ultrasonic Polar-Scan, Nondestructive, W. H. M. van Dreumel and J. L. Speijer, No. 10, p. 922

Composites at Grumman Aerospace, NDT Chronology of Advanced, R. M. Collins, No. 12, p. 1126

Composites by Ultrasonic Mapping, Fatigue Damage Monitoring in, I. M. Daniel, S. W. Schramm, and T. Liber, No. 9, p. 834

Computer-Assisted Spatial Averaging for Ultrasonic Inspection of Stainless Steel Welds, D. S. Kupperman, K. J. Reimann, and A. Winiecki, No. 6, p. 527

Computerized Model for Calculating the Size and Direction of Unknown Reflector Located in a Medium Immersed in Water by Ultrasonic Spectroscopy, A, G. S. Tsiang, No. 9, p. 824

Data Processing for ASME Section XI Requirements Using the SUTAR System, Automated, D. R. Hamlin and H. L. Grothues, No. 1, p. 57

Deconvolution to Acoustic Emission Signal Analysis, Application of, J. E. Michaels, T. E. Michaels, and W. Sachse, No. 11, p. 1032

Demonstration of Filtered Neutron Beam Computed Tomography; Evaluation of a 37 Pin Fuel Assembly Phantom, A, G. A. Schlapper, R. M. Brugger, R. A. Koeppe, G. N. Larsen, and R. J. Jost, No. 12, p. 1121

Developments in Gamma Ray Radiography 1928-41, 1941 Mehl Lecture, Charles W. Briggs, No. 4, p. 356

Dimensioning Flaws in Pipeline Girth Welds by Radiographic Methods, R. C. Placious, D. A. Garrett, M. B. Kasen, and H. Berger, No. 8, p. 755

Dimensions from Radiographs, Extraction of, A. Fishman, S. Wajnberg, A. Notea, and Y. Segal, No. 8, p. 744

Discontinuity (Back to Basics), R. E. O'Conner, No. 6, p. 507

Distance Amplitude Correction and Ultrasonic Inspection, A New Approach to Calibrating for, J. G. Rumbold and J. L. Jackson, No. 5, p. 459

Eddy Current Inspection of Gas Turbine Rotor Bores, Automated In-Service, F. V. Ammirato, No. 9, p. 849

Eddy Current Signals in Steam Generator NDT, Finite Element Simulation of Support Plate and Tube Defect, R. Palanisamy and W. Lord, No. 7, p. 651

Eddy Current System for High-Speed Inspection of M-16 Cartridge Cases, An, R. A. Dilbeck and T. J. Davis, No. 4, p. 396

Evolution of an NDT Engineer—Model 1965, Carl E. Betz, No. 4, p. 371

Experience with the Acoustic Ranger—A Sound Method for Tube Inspection, E. S. Morgan, No. 10, p. 926

Extraction of Dimensions from Radiographs, F. Fishman, S. Wajnberg, A. Notea, Y. Segal, No. 8, p. 744
Fatigue Damage in Aircraft Structure, Acoustic Emission: An Emerging Technology for Assessing, C. D. Bailey and W. M. Pless, No. 11, p. 1045
Fatigue Damage Monitoring in Composites by Ultrasonic Mapping, I. M. Daniel, S. W. Schramm, and T. Liber, No. 9, p. 834
Film Density Variability Noted in Processing Industrial Radiographs, The Phenomenon of, R. E. Wysnewski, G. Howard, and R. L. Krouse, No. 8, p. 752
Finite Element Simulation of Support Plate and Tube Defect Eddy Current Signals in Steam Generator NDT, R. Palanisamy and W. Lord, No. 7, p. 651
Frequency Spectra of Acoustic Emission from Nodular Cast Iron, D. M. Egle, D. A. Tatro, and A. E. Brown, No. 11, p. 1037
Fuel Assembly Phantom, A Demonstration of Filtered Neutron Beam Computed Tomography; Evaluation of a 37 Pin, G. A. Schlapper, R. M. Brugger, R. A. Koeppe, G. N. Larsen, and R. J. Jost, No. 12, p. 1121
Future Complexities in Meeting NDT Needs, D. O'Conner, No. 1, p. 16
Gamma Radiography Equipment, New and Proposed Standards for (Back to Basics), John J. Munro III, No. 7, p. 626
Gamma Ray Radiography 1928-41, Developments in, 1941 Mehl Lecture, Charles W. Briggs, No. 4, p. 356
Gas Turbine Rotor Bores, Automated In-Service Eddy Current Inspection of, F. V. Ammirato, No. 9, p. 849
General Principles of Acoustic Emission, Jean-Claude Lenain, No. 11, p. 1000
Grain Size in Austenitic Sheet by Ultrasonic Backscattering, Nondestructive Determination of, A. Hecht, R. Thiel, E. Neumann, and E. Mundry, No. 10, p. 934
Grain Size and Mechanical Properties in Plain Carbon Steel, Ultrasonic Prediction of, R. Klinman and E. T. Stephenson, No. 12, p. 1116
High Resolution Neutron Radiographic Methods for Radioactive Components, D. R. Green, R. L. Tomlinson, and W. H. Gray, No. 13, p. 1226
History of ASME Requirements for Level III Certification Using SNT-TC-1A, A (Opinion Paper), Michael C. Modes, No. 9, p. 792
Holiday Detection—A Potentially Valuable Method of Nondestructive Testing, K. M. Gunther, No. 9, p. 855
Holographic Inspection for Thin Cover Sheet Bond Quality on Turbine Components, N. B. Edenborough and D. J. Monnier, No. 7, p. 643
Honeycomb Bond Structures, Real-Time Fluoroscopic Imaging System for, M. T. Wilcox and D. L. Hansen, No. 9, p. 844
Improved Boresonic System, An, G. E. Ronca and W. E. Glenn, No. 10, p. 943
Indentation in Steels, Reproducible Acoustic Emission Signatures by, R. B. Clough and J. A. Simmons, No. 11, p. 1026
Industrial Radiographs, The Phenomenon of Film Density Variability Noted in Processing, R. E. Wysnewski, G. Howard, and R. L. Krouse, No. 8, p. 752
Inertia Welded Rotating Bands, Ultrasonic Inspection Locates Discontinuities in, T. Peters, No. 12, p. 1143
Infrared Instruments for Plant Inspection, Two New Portable, H. Kaplan and R. Friedman, No. 2, p. 175
Interference Effects in the Attenuation Transfer Technique Using Ultrasonic Reference Blocks, C. K. Lai and B. G. Frock, No. 2, p. 170
Involute Search Unit—A New Concept in the Ultrasonic Inspection of Pipe, The, J. M. Toth and B. J. Ross, No. 9, p. 828
Laser-Generated Standard Acoustic Emission Source, A, C. B. Scruby, H. N. G. Wadley, R. J. Dewhurst, D. A. Hutchins, and S. B. Palmer, No. 13, p. 1250
Lenses in Ultrasonic Inspection, Toroidal, Conical and Spherical, R. V. Murphy, No. 4, p. 391
Lester Honor Lecture: A Time of Opportunity, D. D. Dodge, No. 1, p. 32
Location of Pipe Obstructions Using Ultrasonic Testing, W. S. Burkle, No. 10, p. 931
Mapping of Materials Stress with Ultrasonic Tomography, B. P. Hildebrand and T. P. Harrington, No. 4, p. 383
Mechanical Properties in Plain Carbon Steel, Ultrasonic Prediction of Grain Size and, R. Klinman and E. T. Stephenson, No. 12, p. 1116
Mehl Honor Lecture (1979): Challenges and Opportunities for Nondestructive Inspection Technology in the High Volume Consumer Durable Goods Industry, E. P. Papadakis, No. 2, p. 122
Mehl Honor Lecture (1981): Serendipity—and Nondestructive Examination, Spencer H. Bush, No. 13, p. 1192
Multi-directional Magnetization of Structural Welds, L. J. O'Bryan, No. 6, p. 508
NDE Measurements, Part 1, A Basis for Traceable (Back to Basics), D. G. Eitzen, H. Berger, and G. Birnbaum, No. 9, p. 797
NDE Measurements, Part 2, A Basis for Traceable (Back to Basics), D. G. Eitzen, H. Berger, and G. Birnbaum, No. 10, p. 886
NDT Chronology of Advanced Composites at Grumman Aerospace, R. M. Collins, No. 12, p. 1126
NDT at General Electric's Nuclear Products Division, No. 5, p. 444
NDT Inspection Demands Boost Business at Independent Test Lab, No. 4, p. 380
Near-Surface Defect Detection, A. N. Mucciardi and R. Shankar, No. 1, p. 74
Neutron Beam Computed Tomography; Evaluation of a 37 Pin Fuel Assembly Phantom, A Demonstration of Filtered, G. A. Schlapper, R. M. Brugger, R. A. Koeppe, G. N. Larsen, and R. J. Jost, No. 12, p. 1121
Neutron Radiographic Methods for Radioactive Components, High Resolution, D. R. Green, R. L. Tomlinson, and W. H. Gray, No. 13, p. 1226
New Approach to Calibrating for Distance Amplitude Correction and Ultrasonic Inspection, A, J. G. Rumbold and J. L. Jackson, No. 5, p. 459
New Horizons for Acoustic Emission, R. W. Sheriff, No. 11, p. 1018
New and Proposed Standards for Gamma Radiography Equipment (Back to Basics), John J. Munro III, No. 7, p. 626
Nodular Cast Iron, Frequency Spectra of Acoustic Emission from, D. M. Egle, C. A. Tatro, and A. E. Brown, No. 11, p. 1037
Nomogram for Calculating Intensity and Distance Relationships in Accordance with the Inverse Square Law, A (Tech Hint), W. S. Burkle and J. O. Lightfoot, No. 9, p. 796
Nomogram for the Calculation of Snell's Law (Tech Hint), W. S. Burkle and F. L. C. Smith, No. 5, p. 438
Nondestructive Composite Laminate Characterization by Means of Ultrasonic Polar Scan, W. H. M. van Dreumel and J. L. Speijer, No. 10, p. 922
Nondestructive Determination of Grain Size in Austenitic Sheet by Ultrasonic Backscattering, A. Hecht, R. Thiel, E. Neumann, and E. Mundry, No. 10, p. 934
Nondestructive Examination, Mehl Honor Lecture (1981): Serendipity—and, Spencer H. Bush, No. 13, p. 1192
Nondestructive Testing Needs in the Steel Industry, R. C. Booth and R. N. Cressman, No. 12, p. 1130
Nondestructive Testing, The Past and Future for, Harlan D. Jean, No. 7, p. 570
Nondestructive Testing of Tubes by Encircling Sensors, J. Perdijon, No. 13, p. 1222
Nondestructive Testing of Valves (Back to Basics), Roger J. Chauvin, No. 12, p. 1088
Nondestructive Testing: What It Is, What It Involves, What It Is Used for, What It Is Not (Back to Basics), M. H. Weinberg, No. 2, p. 111
Nondestructive Thickness Gaging Method for Thin Layers Using X-Ray Fluorescence, H. L. Chesney, E. P. Papadakis, and J. Brinkeroff, No. 8, p. 726
Normalizing Distance-Amplitude-Curves of Side-Drilled Holes in Ultrasonic Testing, U. Schlengermann, No. 12, p. 1138
Once Upon a Time . . ., Philip D. Johnson, No. 4, p. 369
Optimization of the Crack Tip Ultrasonic Diffraction Technique for Sizing of Cracks, S. Golan, No. 2, p. 166
Past and Future for Nondestructive Testing, The, Harlan D. Jean, No. 7, p. 570
Past Perfect, The, 1968 Lester Lecture, Samuel A. Wenk, No. 4, p. 360
Petrochemical Furnaces, Photogrammetry—A Means for Documenting the Condition of, N. O. Cross, No. 9, p. 840
Phenomenon of Film Density Variability Noted in Processing Industrial Radiographs, The, R. E. Wysnewski, G. Howard, and R. L. Krouse, No. 8, p. 752
Photogrammetry—A Means for Documenting the Condition of Petrochemical Furnaces, N. O. Cross, No. 9, p. 840
Pipe, The Involute Search Unit—A New Concept in the Ultrasonic Inspection of, J. M. Toth and B. J. Ross, No. 9, p. 828
Pipe Obstructions Using Ultrasonic Testing, Location of, W. S. Burkle, No. 10, p. 931
Pipe Welds, Radiographic Video Technique for Sizing Defects in, S. A. Wenk, No. 8, p. 748

Pipeline Girth Welds by Radiographic Methods, Dimensioning Flaws in, R. C. Placious, D. A. Garrett, M. B. Kasen, and H. Berger, No. 8, p. 755
Propagation of Ultrasound in Anisotropic Weldments, The, M. G. Silk, No. 5, p. 462
Radiation Techniques to Coal Liquefaction, The Application of, D. G. Sample and M. G. Thomas, No. 5, p. 455
Radioactive Components, High Resolution Neutron Radiographic Methods for, D. R. Green, R. L. Tomlinson, and W. H. Gray, No. 13, p. 1226
Radiographic Fixtures and Accessories (Back to Basics), J. L. Brignac, No. 8, p. 694
Radiographic Methods, Dimensioning Flaws in Pipeline Girth Welds by, R. C. Placious, D. A. Garrett, M. B. Kasen, and H. Berger, No. 8, p. 755
Radiographic Video Technique for Sizing Defects in Pipe Welds, S. A. Wenk, No. 8, p. 748
Radiographs, Extraction of Dimensions from, A. Fishman, S. Wajnberg, A. Notea, and Y. Segal, No. 8, p. 744
Rails with Assistance of Programmable Calculator, Ultrasonic Flaw Evaluation in, A. J. Rogovsky and J. M. Thomas, No. 13, p. 1237
Rayleigh Waves, A Technique for Notch Depth Determination Using Pulse-Echo, G. P. Singh and A. Singh, No. 13, p. 1232
Real-Time Fluoroscopic Imaging System for Honeycomb Bond Structures, M. T. Wilcox and D. L. Hansen, No. 9, p. 844
Recent Experience with Boresonic Examination of a Low Pressure Turbine Rotor, R. V. Collins, No. 2, p. 161
Reference Radiographs, Tubing Butt Welds, R. D. Brown, No. 8, p. 739
Reinforced Thermosetting Resin Plastic (RTRP) Products, Certify Quality Control Inspectors of (Back to Basics), E. Jain, No. 4, p. 346
Reproducible Acoustic Emission Signatures by Indentation in Steels, R. B. Clough and J. A. Simmons, No. 11, p. 1026
Rock Types in Tension, Acoustic Emission Signatures of Various, G. M. Boyce, R. M. Koerner, W. M. McCabe, and A. E. Lord, Jr., No. 11, p. 1051
Shipbuilding, A Study of the Significance of Weld Discontinuities in, L. W. Sandor, No. 6, p. 533
Side-Drilled Holes in Ultrasonic Testing, Normalizing Distance-Amplitude-Curves of, U. Schlengermann, No. 12, p. 1138
Sizing of Cracks, Optimization of the Crack Tip Ultrasonic Diffraction Technique for, S. Golan, No. 2, p. 166
Sizing Defects in Pipe Welds, Radiographic Video Technique for, S. A. Wenk, No. 8, p. 748
Snell's Law, A Nomogram for the Calculation of (Tech Hint), W. S. Burkle and F. L. C. Smith, No. 5, p. 438
SNT-TC-1A (1975), Common Misunderstandings of, R. A. Baker, No. 7, p. 647
SNT-TC-1A, A History of ASME Requirements for Level III Certification Using (Opinion Paper), Michael C. Modes, No. 9, p. 792
Spot-Weld Feedback Control Loop Via Acoustic Emission, Adaptive, S. J. Vahaviolos, M. F. Carlos, S. J. Slykhous, and S. J. Ternowchek, No. 11, p. 1057
Stainless Steel Welds, Computer-Assisted Spatial Averaging for Ultrasonic Inspection of, D. S. Kupperman, K. J. Reimann, and A. Winiecki, No. 6, p. 527
Steam Generator NDT, Finite Element Simulation of Support Plate and Tube Defect Eddy Current Signals in, R. Palanisamy and W. Lord, No. 7, p. 651
Steam Generator Tubing, Ultrasonic Testing of the Clinch River Breeder Reactor, R. A. Day and D. S. Kerr, No. 1, p. 69
Structures, Real-Time Fluoroscopic Imaging System for Honeycomb Bond, M. T. Wilcox, and D. L. Hansen, No. 9, p. 844
Steel Industry, Nondestructive Testing Needs in the, R. C. Booth and R. N. Cressman, No. 12, p. 1130
Steels, Reproducible Acoustic Emission Signatures by Indentation in, R. B. Clough and J. A. Simmons, No. 11, p. 1026
Stress with Ultrasonic Tomography, Mapping of Materials, B. P. Hildebrand and T. P. Harrington, No. 4, p. 383
Study of the Significance of Weld Discontinuities in Shipbuilding, A, L. W. Sandor, No. 6, p. 533
SUTAR System, Automated Data Processing for ASME Section XI Requirements Using the, D. R. Hamlin and H. L. Grothues, No. 1, p. 57
SwRI Develops NDE System for Turbine Rotors, No. 8, p. 696
Technique for Notch Depth Determination Using Pulse-Echo Rayleigh Waves, G. P. Singh and A. Singh, No. 13, p. 1232
Thickness Gaging Method for Thin Layers Using X-Ray Fluorescence, Nondestructive, H. L. Chesney, E. P. Papadakis, and J. Brinkerhoff, No. 8, p. 726
Tomography; Evaluation of a 37 Pin Fuel Assembly Phantom, A Demonstration of Filtered Neutron Beam Computed, G. A. Schlapper, R. M. Brugger, R. A. Koeppe, G. N. Larsen, and R. J. Jost, No. 12, p. 1121
Toroidal, Conical and Spherical Lenses in Ultrasonic Inspection, R. V. Murphy, No. 4, p. 391
Training and/or Certification (Opinion Paper), J. D. Lavender, No. 2, p. 112
Tube Inspection, Experience with the Acoustic Ranger—A Sound Method for, E. S. Morgan, No. 10, p. 926
Tubes by Encircling Sensors, Nondestructive Testing of, J. Perdijon, No. 13, p. 1222
Tubing Butt Welds Reference Radiographs, R. D. Brown, No. 8, p. 739
Turbine Components, Holographic Inspection for Thin Cover Sheet Bond Quality on, N. B. Edenborough, and D. J. Monnier, No. 7, p. 643
Turbine Rotor, Recent Experience with Boresonic Examination of a Low Pressure, R. V. Collins, No. 2, p. 161
Turbine Rotors, SwRI Develops NDE System for, No. 7, p. 696
Turbine Wheels, Ultrasonic Inspection of In-Service Shrunk-On, F. Ammirato, No. 5, p. 468
Two New Portable Infrared Instruments for Plant Inspection, H. Kaplan and R. Friedman, No. 2, p. 175
Ultrasonic Backscattering, Nondestructive Determination of Grain Size in Austenitic Sheet by, A. Hecht, R. Thiel, E. Neumann and E. Mundry, No. 10, p. 934
Ultrasonic Backscattering, Nondestructive Determination of Grain Size in Austenitic Sheet by, A. Hecht, R. Thiel, E. Neumann and E. Mundry, No. 10, p. 934
Ultrasonic Diffraction Technique for Sizing of Cracks, Optimization of the Crack Tip, S. Golan, No. 2, p. 166
Ultrasonic Flaw Evaluation in Rails with Assistance of Programmable Calculator, A. J. Rogovsky and J. M. Thomas, No. 13, p. 1237
Ultrasonic Inspection of In-Service Shrunk-On Turbine Wheels, F. Ammirato, No. 5, p. 468
Ultrasonic Inspection Locates Discontinuities in Inertia Welded Rotating Bands, T. Peters, No. 12, p. 1143
Ultrasonic Inspection, A New Approach to Calibrating for Distance Amplitude Correction and, J. G. Rumbold and J. L. Jackson, No. 5, p. 459
Ultrasonic Inspection of Pipe, The Involute Search Unit—A New Concept in the, J. M. Toth and B. J. Ross, No. 9, p. 828
Ultrasonic Inspection of Stainless Steel Welds, Computer-Assisted Spatial Averaging for, D. S. Kupperman, K. J. Reimann, and A. Winiecki, No. 6, p. 527
